SYMPOSIUM ON CARDIOVASCULAR SURGERY

SUMMER SYMPOSIUM

November 27 - 28, 2014

SCIENTIFIC PROGRAM

Instituto Dante Pazzanese de Cardiologia
São Paulo - Brazil

Message

Institute Dante Pazzanese of Cardiology accomplishes 60 years of existence and in celebration we will hold several activities during the year.

In November 27-28, 2014 we are organizing a Symposium on cardiovascular surgery with great emphasis on the exciting areas of our specialty.

We begin with a double session: firstly about the last 50 years in cardiac surgery and secondly regarding the next 50 years in education, realization and future possibilities.

Subsequently we will discuss the hot topics related to coronary disease, valve disease, aortic disease, and end stage heart failure.

We invited a well-known national and international faculty participating intensively as you can observe in the scientific program.

We will be proud of your presence in this emblematic event.

We hope to see you in November.
